**6th of October 2023**

**Dear Prime Minister,**

With this open letter I aim to expose the support of mental abuse by the Cafcass organisation, not only towards my child, but to many other children across the United Kingdom.

Cafcass is a dangerous organisation with the power to ruin children of working class families' lives.

I will never stop fighting for my child, and other children across the United Kingdom who have also become victims of the mental abuse supported by the Cafcass organisation. Our children are our future and one day will look after all of us, and so we must change the way Cafcass operates.

### ***The Cafcass organisation must change!***

We must carry ourselves with dignity and pride, demand the best from ourselves, and stand up to challenge the wrongdoings by the Cafcass organisation.

I treat the word impossible as nothing more than motivation and will take every opportunity to change the world and make a difference for our children, regardless of being labelled as an outsider by some.

I'm asking you, Prime Minister, to please give me the pathway within the government to present my case and evidence against the Cafcass organisation.

Kind regards,

*Jan Fedurco*
